Nexus Minerals' managing director Andy Tudor (above) will discuss its portfolio of gold projects in Western Australia, with plans advancing at the Pinnacles JV Gold Project to undertake a pit optimisation study and mine development plan.

The company hopes this will assist in determining the financial viability of establishing a gold mining operation at Pinnacles.

Due to a pre-existing ore sale and purchase agreement with Saracen Mineral Holdings Limited (ASX:SAR) (ASX:SAR), there is minimal capital expenditure required to initiate mining, with any ore mined to be processed through Saracen's nearby Carosue Dam Operation.

Mako Gold

Lastly, Mako Gold's managing director Peter Ledwidge (above) will outline to investors next steps at the Napié Project in Côte d'Ivoire, where the company has recently hit assays of up to 143 g/t gold.

During the September quarter the company increased the strike length of mineralisation by 250 metres on the Tchaga prospect, where gold mineralisation is now encountered over a strike length of at least 1.6-kilometres.
